Ashley' s Biography

Ashley earned a Bachelor of Health Sciences (Honours Specialization) degree from Western University in 2022.

In addition to foundational science courses, her program included studies in health policy, business management, and the organizational behaviour of institutions.

She pursued a career in law to work in a client-centered profession where she could further develop the critical thinking, advocacy, communication, and interpersonal skills honed through her interdisciplinary undergraduate studies and various volunteer roles.

Ashley graduated from Western Law in 2025. While actively involved in the student community, she served as Co-Chair of the Health Law Association where she organized and helped reinvigorate the annual Medical Malpractice Moot. She was also a key contributor to the Social Committee, helping to foster a welcoming and inclusive environment for her peers.

Outside the office, Ashley enjoys playing hockey, watching reality TV, and spending time with family and friends.
