

Healthcare Law

Healthcare professionals and institutions seek our advice because we understand healthcare law – and the industry.

As governments push for balanced budgets and aging Canadians demand more services, the healthcare industry faces growing pressures. The McKenzie Lake Lawyers LLP team of healthcare lawyers understand these pressures and the complexity of healthcare issues. We provide exemplary, cost-effective support for leading healthcare institutions as well as individual medical professionals.

For our institutional clients, we provide general counsel in corporate services and corporate governance. We also help manage medical staff hospital privileges, ensure compliance with regulatory measures, help institutions form strategic partnerships and handle disputes or claims.

If you're a physician or medical professional, we can help you navigate issues of privacy, capacity, and substitute decisions. Our experienced healthcare team will also help manage health records and deal with matters of mental health. We have experience representing clients before the Human Rights Commission, the Consent and Capacity Board, the Ontario Review Board, the Ontario Superior Court and Ontario Court of Appeal.
