Oil and Gas Law

We're proud that our oil & gas expertise is helping to build and regulate one of Canada's key economic drivers.

Our unique specialization in the renewable energy and oil and gas industries provide an advantage for our clients. We've worked on cases involving:

- Natural gas storage development
- Oil and gas leasing and related issues
- Pooling and unitization
- Development of wind turbine projects

We have represented corporations seeking approval on development plans, but we've also been a voice for individuals and other interest groups whose rights are affected by energy projects. Our expertise in these areas includes appearances before the Ontario Energy Board, the Ontario Mining and Lands Commissioner, the Ontario Superior Court of Justice and the Ontario Court of Appeal.

Contact Us

For any inquiries with respect to the oil and gas sector, please contact a lawyer directly by email or by phone at (519) 672-5666. If corresponding by email, be sure to include your name, your telephone number, and a brief message.
